

NIKITA YADAV

Software Engineer

Indore, Madhya Pradesh | nikitayadav88899@gmail.com | 8889942579 | linkedin.com/in/nikita-yadav-b00a58236

CAREER OBJECTIVE

Computer Science graduate (B.Tech, CGPA 7.65) with a strong foundation in programming fundamentals, data structures, and object-oriented concepts. Hands-on experience across the software development lifecycle through internships and projects in Python, SQL, and machine learning. A quick learner eager to contribute to product development and grow into industrial automation technologies.

TECHNICAL SKILLS

- Programming Languages: Python, SQL
- Core CS Concepts: Data Structures & Algorithms, DBMS, Object-Oriented Programming, Machine Learning
- Frameworks & Libraries: Django, NumPy, Pandas, Matplotlib, Seaborn, NLTK, Scikit-learn
- Cloud & Tools: AWS (EC2, S3, IAM, CloudWatch), Git/GitHub, Linux

INTERNSHIP EXPERIENCE

Data Analyst Intern — Clepsydra Technologies Private Limited

2026

- Processed and analyzed real-world datasets using Python, performing EDA and data visualization with Pandas, NumPy, Matplotlib, and Seaborn to extract meaningful business insights.
- Built and optimized machine learning models with Scikit-learn to support predictive analysis and data-driven decision-making, working independently under minimal supervision to deliver accurate, reliable results.

ACADEMIC PROJECTS

AI Recruitment Copilot

Python, Flask, NLP, Scikit-learn

- Built an AI-powered recruitment platform covering resume parsing & candidate profiling, job description analysis, and candidate matching & ranking to streamline the hiring pipeline.
- Implemented skill-gap analysis and an interview assistance module with ATS integration, plus a Flask-based analytics dashboard for real-time visualization of candidate and hiring data.

GitHub: https://github.com/Nikitanikiyadav/Infosys_Internship_Project

WhatsApp Chat Analyzer

Python, NumPy, Pandas, Matplotlib, Seaborn, Streamlit

- Developed an end-to-end Python/Streamlit tool that parses chat logs and generates word-frequency, timeline, and user-activity visualizations, delivering actionable insights from unstructured text data.

GitHub: <https://github.com/Nikitanikiyadav/WhatsApp-Chat-Analyzer>

Automated File Backup to AWS S3

Python, boto3, AWS S3, Linux, Cron

- Wrote a Python script using boto3 to automatically upload local files to an S3 bucket, with logging to track the success or failure of each run.
- Scheduled the script as a daily cron job on Linux for hands-off backups; published it in a public GitHub repository with a setup README.

EDUCATION

Shri Vaishnav Vidyapeeth Vishwavidyalaya, Indore

2021 - 2025

B.Tech, Computer Science Engineering — CGPA: 7.65

Ana Convent School, Indore

2020 - 2021

Higher Secondary Certificate (10+2) — 68%

Saraswati Shishu Mandir, Indore

2018 - 2019

Secondary School Certificate — 68%

CERTIFICATIONS

- Data Science Professional Certification — Oracle
- Cloud Computing — NPTEL
- Machine Learning with Flask — Coding Thinker
