

NIKITA YADAV

M.Tech (Pursuing), B.Tech in Computer Science Engineering

Indore, Madhya Pradesh | nikitayadav88899@gmail.com | 8889942579 | [linkedin.com/in/nikita-yadav-b00a58236](https://www.linkedin.com/in/nikita-yadav-b00a58236)

EDUCATION

Devi Ahilya Vishwavidyalaya, Indore

2025 – 2027

M.Tech, Computer Science Engineering — CGPA: 7.50 (Pursuing)

Shri Vaishnav Vidyapeeth Vishwavidyalaya, Indore

2021 – 2025

B.Tech, Computer Science Engineering — CGPA: 7.65

EXPERIENCE

Python Developer Intern — Clepsydra Technologies Private Limited

2026

- Identified and fixed backend logic errors in an existing Django-based website, debugging issues across views, models, and business logic to restore correct functionality.
- Traced bugs back to their root cause by reading through existing code and database queries, then verified fixes against expected behavior before handing off changes.
- Also worked with Python data tools (Pandas, NumPy, Scikit-learn) on applied analysis tasks, communicating findings clearly and incorporating feedback iteratively.

PROJECTS

Resume Screener — Python, Pandas, NumPy, NLTK, Scikit-learn

- Built a machine learning application that extracts text from resume PDFs and classifies candidates into predefined job categories using K-Nearest Neighbors (KNN), automating initial screening and reducing manual recruiter effort.

WhatsApp Chat Analyzer — Python, NumPy, Pandas, Matplotlib, Seaborn, Streamlit

- Developed an end-to-end Python/Streamlit tool that parses chat logs and generates word-frequency, timeline, and user-activity visualizations, delivering actionable insights from unstructured text data.

Automated File Backup to AWS S3 — Python, boto3, AWS S3, Linux, Cron

- Wrote a Python script using boto3 to automatically upload local files to an S3 bucket, with logging to track the success or failure of each run.
- Scheduled the script as a daily cron job on Linux to run backups without manual intervention, and published it as an open, documented repository on GitHub with a setup README.

TECHNICAL SKILLS

- Programming Languages: Python, SQL
- Frameworks & Libraries: Django, Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, NLTK, OpenAI API
- Core CS Concepts: DBMS, Data Structures, Machine Learning
- Cloud & Tools: AWS (EC2, S3, IAM, VPC, CloudWatch), Linux, Git/GitHub

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified DevOps Professional — Oracle (valid through Oct 2027)
- Data Science Professional Certification — Oracle
- Cloud Computing — NPTEL
- Machine Learning with Flask — Coding Thinker
